Salazar Applauds President's Intent to Nominate Vincent G. Logan as the Special Trustee for American Indians

WASHINGTON -- Secretary of the Interior Ken Salazar today applauded President Obama's intent to nominate Vincent G. Logan, a member of the Osage Nation, as the next Special Trustee for American Indians.

"Vincent Logan has been a part of the fabric of Indian Country for many years as an investment professional, mentor for Native American attorneys and founding member of the Native American Bar Association of Washington, DC," Secretary Salazar said. "His asset management expertise, legal experience and extensive network of professional relationships in Indian Country will well serve the Office of Special Trustee as we work to build a stronger and more responsive trust asset management system for the Nation's First Americans." The Office of Special Trustee for American Indians works to improve the accountability and management of Indian funds held in trust by the federal government. As trustee, the Interior Department has the primary fiduciary responsibility to manage about \$3.7

billion in tribal trust funds and Individual Indian Money accounts, as well as leases for developing natural resources, such as coal, oil, natural gas, timber and grazing, that generate income for those accounts.

Vincent G. Logan is the owner of The Nations Group, LLC, which works with Native American tribes on asset management, investment strategies, and financial education. He worked in the Private Banking and Investment Group at Merrill Lynch from 2006 to 2009, and was a corporate finance attorney for Schulte, Roth, & Zabel from 2001 to 2006. Prior to that, Mr. Logan worked in the Antitrust Division at the United States Department of Justice from 1996 to 1998. He was appointed to the Oklahoma State University Foundation Board of Governors in 2010. Mr. Logan is a member of the Osage Nation. He received a B.S. from Oklahoma State University and a J.D. from the University Of Oklahoma College of Law.

The position of Special Trustee requires Senate confirmation.
