

# Chief's Address To The Nation — From Page 1

Environmental Services Building.  
 \*The Director position of our Economic Development Department has been advertised nationwide and once the Business Committee interviews and makes a selection then the new Director will help develop this much needed department. This concept is nothing new to many tribal governments; actually we are just doing what so many tribes have done successfully across the United States. We need to diversify our economic development from

gaming and broaden our vision within our approach to economic self sufficiency.  
 I once more thank you in allowing me to serve as Chief, truly an honor and privilege in leading forward our people; as our Sauk Nation is noted to lead the way in exercising our inherited sovereign governmental rights. Aho!  
 Sincerely,  
 George Thurman,  
 Principal Chief

I want to express my deep thanks to everyone who gave me such a happy 75th birthday! Thank you to everyone for being there, for all your help in preparing the food (away from the kitchen so I wouldn't smell it) and decorating the room, for keeping the party a secret even when I called asking questions! Thank you for the presents – the best gift of all was having you there and sharing your good wishes. You touched my heart and gave me good memories to carry me through my hip replacement surgery.

At the party I mentioned that all of you are Sac and Fox – I realize that other tribes also work here but you are all part of the Sac and Fox family and contribute to the success and continuation of our people.

I thank you for that as well.

Thank you for all the good feelings – you made this a very happy birthday!

## Thank You

I would like to thank all the tribal members who voted for me. I look forward to visiting with you. I would especially like to thank Ken, Gail, and my mom and dad for their support, as well as all the people that brought something to the potluck dinners. I will be having a thank you dinner at the Community building as soon as I get settled into office. For those of you who are unaware, I was sworn in as Second Chief on September 26th and have been extremely busy.
